WHERE NEW SOLUTIONS TAKE SHAPE

We'll participate the "SOLAR POWER INTERNATIONAL 2011" held in Dallas Texas, USA(OCT. 17~20, 2011).

Solar Power International is the largest solar conference and expo in North America. In 2010, the event broke all record attendance. By industry professionals soared to 27,000+, and the number of exhibitors topped 1,000+. Given the surge in the solar energy market, the 2011 event will certainly set the bar even higher.

We'll exhibit with English, Japanese, Chinese and Korean speaker staff. We are all looking forward to welcoming a lot of visitors to our booth.
